VOLUME CVII.--NO. 197. ALEXANDRIA, VA., THURSDAY EVENING, AUGUST 16, 1906. PRICE 2 CENTS.

They Stand Alone.

Standing out in bold relief, all alone, and as a conspicuous example of open, frank and honest dealing with the sick and afflicted, are Dr. Pierce's Favorite Prescription for weak, over-worked, debilitated, nervous, "run-down," pain-racked women, and Dr. Pierce's Golden Medical Discovery, the famous remedy for weak stomach, indigestion, or dyspepsia, torpid liver, or biliousness, all catarrhal affections whether of the stomach, bowels, kidneys, bladder, nasal passages, throat, bronchia, or other mucous passages, also as an effective remedy for all diseases arising from thin, watery or impure blood, as scrofulous and skin affections.

Each bottle of the above medicines bears upon its wrapper a badge of honesty in the full list of ingredients composing it—*printed in plain English.* This frank and open publicity places these medicines on a class all by *themselves*, and is the best guaranty of their merits. They cannot be classed as patent nor secret medicines for they are neither *—being of known composition.*

Dr. Pierce feels that he can afford to take the afflicted into his full confidence and lay all the ingredients of his medicines freely before them because these ingredients are such as are endorsed and most strongly praised by scores of the most eminent medical writers as cures for the diseases for which these medicines are recommended. Therefore, the afflicted do not have to rely alone upon Dr. Pierce's recommendation as to the curative value of his medicines for certain easily recognized diseases.

A glance at the printed formula on each bottle will show that no alcohol and no harmful or habit-forming drugs enter into Dr. Pierce's medicines, they being wholly compounded of glyceric extracts of the roots of native, American forest plants. These are best and safest for the cure of most lingering, chronic diseases. Dr. R. V. Pierce can be consulted FREE, by addressing him at Buffalo, N. Y., and all communications are regarded as sacredly confidential.

It is as easy to be well as ill—and much more comfortable. Constipation is the cause of many forms of illness. Dr. Pierce's Pleasant Pellets cure constipation. They are tiny, sugar-coated granules. One little "Pellet" is a gentle laxative, two a mild cathartic. All dealers in medicines sell them.

FIGURES OF VIRGINIA CITIES.

Director North, of the census bureau, has complied statistics showing that according to the last census taken in 1903, Alexandria had 20 police officers, and they arrested a total of 1,224 persons; Danville had 18 officers, and they arrested 1,600; Lynchburg, 27 officers, 3,293 arrests; Manchester, 6 officers, 1,383 arrests; Newport News, 34 officers, 3,408 arrests; Petersburg, 26 officers, 2,036 arrests; Portsmouth, 20 officers, 1,089 arrests, and Roanoke, 21 officers, 2,574 arrests.

Alexandria had 65 saloons, license $75; no licenses were issued in Danville; Lynchburg, 36 saloons, license $600; Manchester, 20 saloons, license $30; Newport News, 59 saloons, license $200; Petersburg, 41 saloons, license, $125; Portsmouth, 34 saloons, license $150; Roanoke, 32 saloons, $650 license tax each, more than in any of the other places mentioned. It is thus seen that it cost less to sell liquor in Manchester than in any of the other liquor places in this group.

Portsmouth had 304 volunteer firemen, while Newport News had 112, Alexandria 39, and Danville 20, There are no volunteers in the other places

Alexandria had 5 school buildings and employed 20 teachers Danville, 5 buildings, 50 teachers; Lynchburg, 9 buildings, 59 teachers; Manchester, 3 buildings, 52 teachers; Newport News 11 building, 46 teachers; Petersburg, 8 buildings, 46 teachers; Portsmouth, 6 buildings, 58 teachers; Roanoke, 8 buildings, 58 teachers.

Virginia is one of the few States having no municipal libraries, almost every other State in the Union having at least one or more.

Alexandria, Danville, Lynchburg, Manchester, Newport News, Petersburg, Portsmouth and Roanoke are all accredited with one almshouse each, and the largest number of inmates was found to be at Lynchburg, where the average number of paupers taken care of was 67.

Alexandria had eleven miles of electric light wires and Danville thirty. These were under municipal control, and in the other places in this group figures are not given because the plants are owned by corporations and not by the municipalities.

Of the places that have been mentioned, Lynchburg was the best lighted, having 145 electric lights; Alexandria 91; Danville, 155; Manchester, 78; Newport News, 135; Petersburg, 211; Portsmouth, 92, and Roanoke, 182.

In the matter of sanitary and food inspectors, Alexandria had 15 men employed; Danville, 11; Lynchburg, 9; Manchester, 5; Newport News, 8; Petersburg, 10, and Portsmouth, 12.

Found Wife Bound and Gagged.

C. Maitland Mann, a pharmacist in the Hudson Street Hospital, New York, entering his home, at 541 west One Hundred and Forty-fourth street for luncheon yesterday afternoon, found his wife, aged 19, bound and gagged and wrapped in a quilt on a bed. The was almost suffocated. The doors were open and the house was ransacked.

Mrs. Mann, when released, told her husband that she had been attacked by two young men two hours before his arrival. After binding and gagging her they ransacked the house.

The Manns occupy a flat on the ground floor of the house. Mrs. Mann says that she was seated in the parlor playing with her briudle terrier, when two young men entered the room. How they got into the house she does not know.

Their sudden appearance frightened her. Before she could cry out one of them had clapped his hand over her mouth. He advised her to keep quiet, but she struggled to release herself.

While one of the men held her, the other ran into her husband's bedroom, returning with a couple of neckties and a handkerchief. They knotted the neckties into a rope and tied her hands and arms behind her with it. Then they stuffed a handkerchief into her mouth and bound her feet with a bed quilt. When she was completely helpless they picked her up, carried her to the bedroom and stretched her out on the bed. When she recovered the men were gone.

Jewels Recovered.

Acting under instructions cabled from England, John P. O'Brien, a laborer employed in the wrecking of the World's Fair buildings at St. Louis, has unearthed an alligator bag containing jewels valued at $50,000, which were stolen from Mr. and Mrs. P. Henry Clayton, of Devonshire, England, during a visit to the Louisiana Purchase Exposition two years ago.

The jewels were stolen from a trunk, and they were not missed until the Claytons had returned to England after a tour around the world. They then had no means of knowing where the jewels had been stolen.

About a month ago a Hindoo servant, who had been in their employ during the trip, was fatally injured by an elephant in India, and on his deathbed confessed that he stole the jewels while in St. Louis. He said that he became alarmed, and, fearing detection, had dropped them into a hole in the wall of the Manufacturers' Building. Later he again wished to secure the gems, but on returning to the place where he had secreted them could not reach the bottom of the space between the plaster and the side of the building. Fearing to make any inquiries or ask assistance, the Hindoo departed from St. Louis with the Claytons, leaving the jewels in their hiding place.

O'Brien was generously rewarded, and was also employed by Mr. Clayton as his personal attendant.

Prof. Tyler, of Amherst college, said recently: "A man can live comfortably without brains; no man ever existed without a digestive system. The dyspeptic has neither faith, hope or charity." Day by day people realize the importance of caring for their digestion; realize the need of the use of a little corrective after overeating. A corrective like Kodol For Dyspepsia. It digests what you eat. Sold by W. F. Creighton & Co., 401 King street.

APPEARING OLD

Acts as a Bar to Profitable Employment.

You cannot afford to grow old.

In these days of strenuous competition it is necessary to maintain, as long as possible ones youthful appearance.

It is impossible to do this without retaining a luxurious growth of hair.

The presence of Dandruff indicates the presence of a burrowing germ which lives and thrives on the roots of the hair until it causes total baldness.

Newbro's Herpicide is the only known destroyer of this pest, and it is as effective as it is delightful to use

Herpicide makes an elegant hair dressing as well as Dandruff cure.

Accept no substitute—there is none.

Sold by leading druggists. Send 10c. in stamps for sample to The Herpicide Co., Detroit, Mich.

A Healing Gospel.

The Rev. J. C. Warren, pastor of Sharon Baptist Church, Belair, Ga., says of Electric Bitters:" "It's a Godsend to mankind. It cured me of lame back, stiff joints, and complete physical collapse. I was so weak it took me half an hour to walk a mile. Two bottles of Electric Bitters have made me so strong I have just walked three miles in 50 minutes and feel like walking three more. It's made a new man of me." Greatest remedy for weakness and all Stomach, Liver and Kidney complaints. Sold under guarantee at E. S. Leadbeater & Sons' drug store. Price only 50c.

A DECLINE in the wheat market yesterday on the New York produce exchange brought the price of that commodity to the lowest figure of the last four years. Continued good weather in the wheat belt, with the promise of a bountiful harvest, was responsible for the weakness in both wheat and corn. Cash wheat sold at 77½c, against a high price of the year, made last January, of 96½c, while cash corn sold at 56½c, against 62½c, the high point of the current year. Western markets also were weak. A leading elevator concern in Chicago estimates that the three leading spring wheat States will harvest this year $210,000,000 bushels, or 25,000,000 bushels more than last year. On the decline in corn in Chicago a large shipping trade was reported for eastern account, amounting to about 750,000 bushels. The decline in wheat, it is feared, will be seriously felt by the Virginia farmers who are compelled to pay high tariff prices for all they buy, but they will now be compelled to sell their wheat for what they can get.

JUSTICE GIEGERICH, in the Supreme Court of New York, yesterday, granted an application by Clarence J. Shearn for a peremptory writ of mandamus to compel the Consolidated Gas Company to supply gas to Mr. Shearn's client, at the statutory rate of 80 cents a thousand cubic feet. At the same time Justice Giegerich allowed two days' notice for the settlement of the writ, and there will be an immediate appeal from his decision. In granting the motion for the writ, Justice Giegerich swept aside the contention of the Consolidated Gas Company's counsel that the 80-cent rate fixed by the new law would prevent the company from paying dividends on its stock and that, therefore, the law was unconstitutional, because it would deprive the company's stockholders of their property. This is another instance of the uncertainty of law.

THE DEPARTURE from this city today of the Alexandria Light Infantry for their annual encampment calls to mind of older citizens the days just before the civil war. Today there is but one military organization in Alexandria, and this command marched through the streets today with less than forty men. In 1861 a large majority of the able-bodied men and youths of the city were soldiers, and each company had full ranks. Then there were the Alexandria Riflemen, Mount Vernon Guards, Old Dominion Rifles, Emmet Guards, O'Connell Guards, Kemper's Battery, Young Riflemen, Bell's Cavalry, etc. The spirit of patriotism was rife then and the desire to be a soldier was prevalent, but times have changed and the interest taken in military organizations seems to be on the wane throughout the country.

THE German Naval Journal confirms rumors that the government has decided to construct the next German battleships with a displacement of 19,000 tons and a speed of 19 5 knots, and cruisers with 15,000 tons. This would make possible an armament superior to that of the British Dreadnought. Notwithstanding the "peace conferences" and the talk of disarmament and the reduction of armies, the actual work among nations of strengthening their armies and navies goes right along.

OPPOSITION to joint Statehood for the Territories of New Mexico and Arizona grows more formidable as the time of decision approaches. Both parties in Arizona are organizing to oppose it, and there are six newspapers in New Mexico which have declared against it. It is certain to be voted down in Arizona, and present indications point to serious opposition in New Mexico. Things do not look so blooming as they might for the consolidated State.

BOTH the democratic and the republican parties are beginning to find out that under the changed conditions incident to national and state elections raising funds for campaign purposes is no longer a picnic. It may still be possible to collect all necessary funds by contributions without a taint upon them, but the old, lavish styles of political expenditure must go, for the simple reason that the sources which supplied the funds for it are dried up.

From Washington.

[Correspondence of the Alexandria Gazette.]

Washington, Aug. 16.

Alarmed at the arrival at Ellis Island immigration station of so many victims of trachoma, the New York immigration officials have brought the subject again to the attention of Commissioner General Sargent of the Immigration and Naturalization Bureau. This official has just returned from New York where he looked into the situation himself. According to reports of immigration physicians who inspect the immigrants, never before have so many immigrants been brought to this country suffering with the disease. The victims detected and deported have now reached 100 a month; on August 11, alone, thirty-three being returned. The disease of the eye being contagious, the matter assumes a serious aspect, the officials say. Hundred of immigrants huddled up with the victims on the vessel bringing them to America will contract the disease. Shortly after their arrival they will develop the affliction, to communicate it to unsuspecting persons in this country. Officials of the bureau take the position that never before was the necessity of having members of the marine hospital corps and public service stationed in foreign countries to examine the would-be immigrants so patent as now.

Orders were issued by Secretary of the Navy Bonaparte today organizing a board of naval officers, with Assistant Secretary of the Navy Newberry as president, to consider all laws and regulations affecting the commissioned personnel of the navy with a view to the secretary recommending to Congress new personnel legislation. This is one of the most important naval boards ordered during the past seven years. Besides Assistant Secretary Newberry the board will consist of Rear-Admiral Charles H. Stockton, Captain Charles E. Vreeland, Commander Harry H. Hosley, Commander Albert Gleaves, Lieutenant-Commander William S. Sims and Lieutenant-Commander William S. Sims and Lieutenant Commander Emil Theiss.

Harvest, which is now in progress in Europe, shows much encouragement, according to the report on European crop conditions made by the Department of Agriculture today. Favorable weather has attended the harvest, with the important exceptions that over large areas in the south of Russia work has been delayed and crops damaged by excessive fall of rain and that a large portion of the Italian wheat crop has been impaired in quality from a like cause. While the quality of the wheat crop of France is good, the report says that the yield is sure to be short of that of last year. The exact reverse in regard to both quality and quantity exists in Italy. Excellent crop reports are received from Spain. A tone of satisfaction exists in Germany over all the crops. In Russia the prospects are not so good. All the cereal crops deteriorated during July, and the general opinion is said to be that the yield of the principal cereal crops will be less than last year. Good crops are anticipated in England, Austria and Hungary.

The situation in Santo Domingo is far from satisfactory to the State Department. Word received from there during the past week indicates the existence of a strong revolutionary sentiment in the Monte Christi district, and the later advices from Porto Rico declare that the Dominican revolutionary leaders residing there are secretly organizing an expedition to invade Santo Domingo and reinforce the revolutionists near Monte Christi. The acting Secretary of State has been preserving the utmost secrecy regarding developments in the Island of Santo Domingo. Today comes word of the sailing from Porto Rico for the United States of Jiminez, the exiled revolutionist leader, for New York, presumably to consult with those financial interests which are supposed to be back of the revolution and to purchase arms and ammunition. It is also learned that stringent orders have been issued by the Navy Department to Commander Southerland, the senior U. S. naval officer in Dominican waters, to prevent the landing in Santo Domingo of any hostile force which was organized in Porto Rico or on any American territory.

H. B. Gray, of Manassas, was taken from a Southern Railway train this morning, suffering from typhoid fever. Mr. Gray left his home last night and before morning grew violently ill. He was sent to Providence Hospital.

The express companies of the country are in distress. The railway regulation law, which goes into effect Aug. 28, not only makes the companies common carriers but provides that all their merchandise schedules shall be filed with the Interstate Commerce Commission of that date. They insist that this cannot be done and in as much as heavy penalties are prescribed for failure to comply with all regulations the companies are urging the commission to extend the time for the filing of the schedules. A letter was received today, from the Adams Express Co., announcing that all the additional force the quarters of the company can accomodate cannot complete the preparation of general schedules before October 1. The further work of checking up and testing special rates at the respective offices, they declare, will occupy several months more. They want the time for schedule filing extended to January 1.

Closing of a Bank.

Smithville, in Ritchie county, W. Va., was yesterday thrown into excitement on account of the closing of the doors of the Smithville Bank by a State bank examiner, and Cashier George C. Clammer is under arrest, charged with being responsible for the shortage of the bank, which is about $80,000.

Clammer is charged with falsifying the account of the bank and permitting overdrafts in large amounts. His arrest was caused by a director of the bank, who swore out a warrant before Justice Al Wilson, and when arraigned Clammer waived examination and was held to await the action of the grand jury in the sum of $2,000.

The cashier claimed to be innocent of any wrongdoing, and said that he had money on exchange in banks in Pittsburg and other cities to cover the alleged shortage, but when those banks were communicated with it was found that the bank had no money with them.

A number of the people of the town were small depositors, and will feel the loss of their savings very keenly.

The Eagles' Parade.

Milwaukee, Wis., Aug. 16.—Business practically went into a state of eclipse today due to the immense parade of the Fraternal Order of Eagles, twenty thousand strong. It was the star spectacular event of the week's meeting, and brought forth immense crowds to witness the lodge men display their charms. The political situation has switched about owing to the caucus of 6 eastern states—Maine, New Hampshire, Rhode Island, Vermont Connecticut and Massachusetts—with a view to placing the next convention in Boston or some city in the east. The financial showing of the grand treasurer is gratifing. The grand Aerie has a balance of $96,846. There are 56 aeries with a membership of 500,000.

Suicide of an Insurance Official.

Paterson, N. J., Aug. 16.—Sigmund A. Nevstadt, assistant superintendent of the Metropolitan Life Insurance committee, committed suicide today by putting a bullet through his heart in the East Side Park. The insurance officials at once started an examination of his books. Nevstadt was married and owned considerable property. He was secretary of the A. M. White Masonic Lodge. Nevstadt made a report to the insurance company yesterday and today a fuller report was expected.

News of the Day.

Secretary Taft has issued an order opening to enlisted men all the 48 vacancies in the rank of second lieutenant.

The British government will seek the extradition of William Conn, treasurer of the Benevolent Society of Postal Employes, who absconded to the United States, leaving a shortage of $145,000.

A report comes from St. Petersburg that Mlle. Smirnoff, who was accompanied by another lady, was taken to a barracks and brutally assaulted by soldiers because she made a slighting remark about them.

The Texas democratic State convention yesterday adopted a platform reaffirming the principles of the party and demanding a law prohibiting corporations from contributing to campaign funds. Unbound confidence in the statesmanship and patriotism of William J. Bryan appears in a resolution, together with the hope of his nomination for president in 1908.

Conditions in certain sections of Russian are again serious. Troops fired into the crowds of excited people in Warsaw and Lodz yesterday, killing and wounding hundreds. Revolutionists killed numerous policemen and gendarmes in Warsaw. A systematic massacre of police officials has begun. While the Czar and the Grand Dukes met face to face thousands of the troops in the hope of stimulating the latter's loyalty, it is known that the guards fired ball cartridges at the Grand Duke Nicholas and men of another command fired at their officers.

Governor Swanson, who is at his home, at Chatham, is determined to fully investigate the high-handed raid by a Kentucky posse into Lee county, and the capture of Frank Ball, after a fight, in which one of Ball's party a Virginian, was killed. Governor Swanson has sent letters to Judge J. A. W. Skeen, Sheriff Ball and Commonwealth's Attorney Ely, of Lee county, requesting that all the facts concerning the acts and conduct of the Kentuckians, particularly as to the killing of Lee, be forwarded to him. The Governor declares that the law and dignity of the commonwealth must be upheld in this case, as to all others.

Solicitous about the welfare of a pickaninny who had been caught in the act of stealing a watermelon, a thousand negroes gathered in front of George W. Wills' store, at Thirtieth and N streets, Richmond, Tuesday night, and threatened dire things against the proprietor and the property. A negro youth, Joe Adams, was seized for purloining the melon and held in the store. The negroes spread the report that the boy was shut up in the ice box and was slowly freezing to death. Wills secured a shotgun and, standing in the front of his door, held the mob at bay until a squad of police could force their way through the surging crowd to his side and beat the negroes back. The timely arrival of the officers probably saved the grocer from being roughly dealt with.

The Pope's Encyclical.

The Pope's encyclical letter to the French archbishops and bishops regarding the separation law continues to be the topic in Paris of absorbing interest; but the discussion is largely polemical, as the law not taking effect until December gives ample time for reflection. Moreover, the absence of all high personages, official or parliamentary, defers an exact determination of the government's course. Nothing similar to the inventory riots has occurred or is expected to occur either in Paris or the provinces, although the actual application of the law in December probably will accentuate the situation.

M. Briand, the minister of public worship, is absent from Paris; but the Temps yesterday gathered the views of several high officials, who point out that the encyclical is merely negative in form, condemning the cultural associations provided by the law, but giving no real instructions relative to the bishops' future course.

The Pope's intention is regarded in government circles as leaving the bishops free to act in the way which to them seems best, without exciting a violent conflict between the civil and religious powers. The Pope, they contend, by his repeated references to the rejection of the association provided for by the law, entertained the after thought that the government might possibly, by means of negotiations, be induced to assent to the formation of associations which, while carrying out the spirit of the law, would recognize the divine constitution of the church, the unchangeable rights of the Pontiff and the hierarchy's complete control of sacred edifices.

Today's Telegraphic News

Renomination of Mr. Cannon.

Danville, Ill., Aug. 16.—In accepting renomination for Congress at the hands of the republican convention for the 18th Illinois district which met here today, Hon. Joseph G. Cannon, Speaker of the House of Representatives, delivered a carefully prepared speech in which he handled in his characteristic fashion the issues of the present campaign. He discussed the prosperity of the country as compared with conditions under the second Cleveland administration, talked of the glories of the protective tariff, praised President Roosevelt, took a whack at the trusts, and picked up the gauntlet thrown down by President Gompers, of the American Federation of Labor. He warmly defended Congress from the charges recently made of unfriendliness and indifference to the rights of the workingman. He endeavored to show that under a republican administration the profits of labor have been steadily increasing, and pointed to the record of the 59th Congress in enacting important legislation for the benefit of all the people. The Speaker expressed his approval of labor organizations as such, but deprecated the movement that would dictate the political affiliation of their members. He referred to Mr. Gompers as one who "claims to represent organized labor," and who seeks to control the action of its members at the ballot box. Mr. Cannon devoted considerable time to the anti-injunction legislation sought by President Gompers. He frankly stated the grounds of his opposition to the measure, saying that it would in times of trouble turn loose the criminally disposed and result in the destroying of property in the name of contesting labor without remedy to the owner. While not questioning Mr. Gompers' good faith in the matter, he felt that the president of the A. F. of L. had failed to realize the consequences of such legislation. Mr. Cannon's speech today is admittedly intended as the keynote from which other congressional spell-binders may strike up tunes in their respective districts.

Edward and William.

Cronberg, Prussia, Aug. 16.—King Edward of England left here this morning after his visit to Kaiser Wilhelm at Frederickshoff on his way to Marienbad for his annual visit to the famous watering place. The two monarchs parted with the same outward manifestations of friendship that marked their meeting and the entire course of their visit together. Kaiser Wilhelm accompanied his uncle to the railway station and the rulers embraced before Edward boarded the train. The British sovereign waved his hand to the Kaiser as the train pulled out of the station. The tone of the German press toward King Edward on the occasion of his meeting with the Kaiser, was cordial, and it is generally felt here that as a result of the King's visit to Germany, peace has been restored between the two monarchs who have had some bitter personal disagreements during the last two years and that better relations will be established between Germany and England.

That the meeting of King Edward and the Kaiser is bound to be productive of good, seems to be the feeling in both Great Britain and Germany, as shown by the expressions of the newspapers generally. The significance of their visit is shown by the fact that the British king was accompanied by Sir Charles Hardinge, permanent under-secretary of foreign affairs. His presence in the King's party was known to indicate that matters of state affecting the two nations were to be discussed. It is the general belief that the subjects affecting the two countries most vitally, as well as other matters which may arise in the future, were gone over and an understanding reached. The friendly nature of the whole visit indicates, in the eyes of diplomats, as well as the newspapers, that the differences which have separated the English ruler and his nephew during the last two years and even threatened to embroil them in war, were amicably adjusted.

More Disorders in Poland.

Warsaw, Aug. 16.—Stern reprisals are expected in this city and throughout Poland, as a consequence of the wholesale assaults made yesterday and last night on police officials, and the population is panic stricken, more in dread of what it is feared is to come than as a result of the outbreaks which have occurred.

Reports today show that the police massacre was of wider extent than was at first known, and there seems to be no doubt that the numerous assaults on officers, coming almost simultaneously, were the result of a carefully laid and well executed plot to inaugurate a reign of murder by terrorists and revolutionists, with policemen as the victims.

In Warsaw, following the attacks on officers which resulted in the killing of about a dozen policemen and gendarmes, fighting marked by desultory firing continued between revolutionists and patrols of soldiers throughout the night.

Today's advices state that at Plock, fifty-eight miles northwest of Warsaw, five police officers were killed and two wounded.

At Radom, fifty miles south of this city, the police station was destroyed, presumably by a mob, and one child was killed and two others injured. The assassin of the Chief of Police of Wloclawski, who was killed during the night, was a schoolboy, who made his escape.

Woman Mountain Climber.

Bombay, India, Aug. 16.—Dr. Fanny Bullock Workman, the noted traveler and mountain climber, is camped at the height of 23,000 feet above the sea in Nunkum Mountain range in Kashmir. Her ascent makes a new record for women in mountain climbing. Fanny Bullock Workman is the daughter of former Governor Bullock, of Massachusetts. She was married to Dr. Wm. H. Workman, who was born in Worcester, Mass., but they make their home in London, when not traveling for exploring new regions.

Bars Lynching Postal Cards.

Acting Postmaster General Hitchcock has instructed Postmaster Ramsay, at Salisbury, N. C., to prohibit lynching souvenir postal cards from passage through the mails. Hundreds of postal cards, portraying the grewsome sight of three negroes dangling from the limb of a tree, were printed by a Salisbury firm soon after the lynching, and purchasers began mailing them. Postmaster Ramsay ordered that all such cards be held up until he could get a ruling on them from Washington.

Affairs in the Philippines.

Manila, Aug. 16.—Strong repressive measures are being used to subjugate the Pulajanes in the northern part of Leyte, who were responsible for the recent outbreaks, according to advices received here from that island today. The northern part of the island has been divided into three military districts to facilitate field operations. Troops in large numbers have been sent there and Brigadier General Lee is in command. Scouting parties are keeping a close watch over the districts, and the collection of any considerable number of natives at one point is at once reported. Another encounter is reported to have occurred between a band of natives and a detachment of the Twenty-fourth infantry under command of Lieutenant Sweeney. Seventy-four natives were captured and several wounded. No report is made on the number killed.

Vincente and Cayetane Lukban, brothers, who were sentenced in April 1904, to five years imprisonment for conspiring to overthrow the government, have been unanimously acquitted by the Philippine Islands Supreme Court.

Trouble at an End.

New York, Aug. 16.—The riots of the Brooklyn Rapid Transit Railroad Company are at an end and trolley cars are again moving to Coney Island today. Pending a decision of the Court of Appeals, passengers have consented to pay the additional five cents fare, but the company will give rebate tickets, so that if the decision is against the company the money paid the company in excess of five cents will be refunded. The rebate tickets will be given to passengers on Saturday, it having been found impossible to print them before that time. Meanwhile, the public is paying the additional fare of five cents, following the advice of Justice Gaynor, who, though he said five cents was the legal fare, advised that it would be better to suffer a little while than precipitate violence by declining to pay the extra fare.

At midnight Magistrate Higginbotham issued a warrant for the arrest of Timothy F. Williams, treasurer of the Brooklyn Rapid Transit, and John Doe warrants for all the directors of the company. The warrants charge inciting riots. Other officers of the road were also arrested.

Killed by Explosion.

El Paso, Tex., Aug. 16.—By the explosion of a car load of dynamite at the Chihuahua and Pacific Railway depot in Chihuahua late yesterday from 30 to 50 persons were killed. The dynamite was being transferred from a Mexican Central Railroad car to a car of the Chihuahua & Pacific, the latter road being narrow gauge. One of the Mexican laborers dropped a keg of dynamite and the explosion set off the carload. Every laborer and the foreman, the latter being American, were blown to atoms, and the earth was shaken as if by an earthquake. According to the details received fragments of bodies were blown almost a mile and the roofs of the houses in the neighborhood were covered with pieces of human flesh. Many small buildings close to the scene were completely wrecked, and a number of people were injured in their homes. Windows were cracked in all parts of the city and flying debris fell on pedestrians inflicting painful injuries in many cases.

Contestants for the Roosevelt Cup.

Marblehead, Mass., Aug. 16.—With two races to the credit of the Spokane, one to that of the Bonidire and one to the Cod, the 17 contestants for the honor of competing with the German Soudre boats for the Roosevelt cup were at the starting line this morning ready for the two races schedule for today. The first race today will be over a triangular course of nine miles. The first leg will be a beat to windward, three miles south of the starting line. The wind is light from the south. The boats were started at 11 a. m. The Ellen crossed first at the leeward end of the line, the Auk went over second. The Auk speedly took the lead. The Auk rounded the windward mark at 11:59, slightly ahead of Windrim Kid Bonidire was third and Manchester fourth. The Auk finished the race first at 12:54:10. The Windrim Kid was second at 12:54:38. Bonidire third at 12:55:12.

Attack on Freight Car Station.

Odessa, Aug 16.—An outbreak on the part of anarchists who made an attack on a freight car station, occurred here early today. Fifteen anarchists were concerned in the raid on the station, they seized the officers and started to loot them. An inspector of police and three constables who interfered were killed. The anarchists then seized 16,000 roubles and made their escape. The police pursued the fleeing marauders and captured two after they had been disabled. It is not known whether the attack here was a part of the apparent general reign of murder of police officials inaugurated last night and yesterday in many parts of the empire, or an independent outbreak by anarchists bent mainly on robbery.

Her Hair Wound on Axle.

Pittston, Pa., Aug. 16.—Dragged by her hair 100 yards in a runaway, Mrs. George Rozelle, an aged farmer's wife, yesterday received internal injuries that will doubtless result fatally. When the horses became frightened she fell from the wagon seat between the wagon box and the front wheel, and her hair switch caught in the spoke near the hub, and wound around the axle. Her aged husband refused to save himself by jumping, but heroically endeavored to rescue his wife by reaching for her over the side of the wagon box as the team dashed up the street. The wagon was overturned at a street corner and the runaway stopped. Mrs. Rozelle's switch had to be cut close to her head to release her.

Floods in India.

Bombay, India, Aug. 16.—Unprecedented floods have occurred in Bengal, resulting in the destruction of the railway lines. Communication has been stopped except by boat. It is feared the floods have caused heavy loss of life.

New York Stock Market.

New York, Aug. 16.—Trading in the Harriman stocks was excited all through the first hour and both Union Pacific and Southern Pacific made new high records. Naturally the strength of the Harriman, Vanderbilt and Standard Oil issues forced the greater part of the list into comparative neglect, and there were few important price changes other than those noted.

In this state it is not necessary to serve a five days' notice for eviction of a cold. Use the original laxative cough syrup, Kennedy's Laxative Honey and Tar. No opiates. Sold by W. F. Creighton Co., 401 King street.

Non-union Men Killed.

Pittsburg, Aug. 16.—Labor troubles between union and non-union miners is said to be responsible for a bloody cutting affair at Butler Junction, six miles from Tarentum, on the Allegheny river, early this morning. Two unknown non-union men are supposed to have been killed and their bodies thrown into the river. One non-union miner is dying from horrible gashes in his side. Officers arrested eleven men, but two prisoners escaped. The officers with nine prisoners are now en route to the county jail. Details of the encounter are not yet known.

Three weeks ago the mines of the Freeport Coal Company were changed from union to non-union. Trouble was anticipated and precautions were taken. The displaced miners remained quietly in their homes and it was supposed that the danger of an outbreak had passed. Vigilance was relaxed. Last night, however, twenty-nine of the new arrivals were attacked by the men whom they had supplanted in the mine. Superior numbers made short work of the non-union men. Sticks, stones, and knives were the weapons used in the fight and every one of the twenty-nine non unionists sustained injuries more or less. It was late in the night before the beaten members revived sufficiently to notify the authorities of what had happened. The county officials were sent for and the arrests followed early this morning.

Grand Army of the Republic.

Minneapolis, Minn., Aug. 16.—The national encampment G. A. R. elect, a commander-in-chief today. The executive sessions opened this morning Commander Tanner presiding. There is a hot fight on for Tanner's seat. Of the candidates R. B. Brown, of Zanesville, O., leads. O. G. Burton, of Missouri is making a hard fight but has small chance for election. P. H. Coney, of Kansas, has a small backing outside his own State. Dallas, Texas, and Saratoga, N. Y. are fighting for the 1907 encampment. Saratoga has the largest following. No candidate is in the field as yet for senior vice commander. The place is expected to go to an eastern man. E. B. Fenton, of Michigan is the only candidate for junior vice commander. His election seems certain.

Archbishop Ireland will probably be the next Chaplain in Chief. After preliminary business Tanner made his annual address. The two big questions before the encampment will be the Wirth monument movement in the South, and governmental abolishment of canteens in national G A R homes. The monument project probably will be condemned. It is expected that resolutions touching the canteen question will be adopted. A majority of the delegates disapprove of the act of abolishment. There are about 530 delegates.

Alleged Attack by Strikers.

New Haven, Conn., Aug. 16.—Henry M. Dexter who says he comes from Baltimore, was locked up at police headquarters today charged with assault with intent to kill. Dexter claims he was attacked by several men at the corner of Church and Meadow streets, his face scratched, and his head battered. He pulled a revolver and fired a shot over the head of Joseph Degnan, of Washington street. Before he could fire another shot he was taken in charge by a police officer. Dexter says he came here to work for the railroad company, in place of the switchmen who have been on strike and who were discharged by the company. He declares his belief that the men who assaulted him were strikers.

Rival Candidates.

Boston, Aug. 16.—Henry M. Whitney, the wealthy business man and candidate for lieutenant-governor at the last State election, and District Attorney John B. Moran, who stirred up a recent legislature on questions of graft and bribery, are rival candidates for the democratic nomination for governor. Mr. Whitney seems to have the inside track with the democratic organization and this probably led Mr. Moran to announce the novel proposition which he makes public today. Moran says he would be willing to have Mr. Whitney and himself submit reasons for desiring to head the democratic ticket to any three strong and three weak democratic wards, or to six cities outside of Boston, and abide by the results. He also suggests the submission of their individual records to William J. Bryan with power to pick the candidates.

Battle in Morocco.

Tangier, Morocco, Aug. 16—Raissuli, the noted bandit chief and captor of Ion Pardicaris, who has terrorized the region about Tangier for a long time, has fought a pitched battle with the troops of the Sultan close to the city. Many casualties are reported. As a result of the battle several European citizens are reported to have been placed in a critical position.

Burning of a Hotel.

Halifax, N. S., Aug. 17.—The Arcadia Hotel, a summer hostelry on the north side of Prince Edward Island, owned by T. C. Hall, formerly of Boston, and patronized by wealthy Americans, was burned to the ground last night. Sixty guests were in their beds at the time the blaze started, but fortunately all escaped. Many of them, however, lost their effects.

To Start Investigation.

Chicago, Aug. 16.—Federal officials declare they will be able to start the investigation of the relation of certain railroads with the Standard Oil Company with the new grand jury this morning without difficulty. "I'm the luckiest man in Arkansas," writes H. L. Stanley, of Bruno, "since the restoration of my wife's health after five years of continuous coughing and bleeding from the lungs; and I owe my good fortune to the world's greatest medicine, Dr. King's New Discovery for Consumption, which I know from experience will cure consumption if taken in time. Gompers vs. Cannon.

The issue between the republican party and organized labor in the coming campaign will be clearly and explicitly stated by Speaker Cannon this evening when he accepts, at his home in Danville, the nomination for the House of Representatives. President Gompers, of the American Federation of Labor, has singled out Speaker Cannon as the particular mark against which organized labor shall direct is efforts this year.

It will be remembered that when Chairman Gompers and his associates called on President Roosevelt, and subsequently on Speaker Cannon, to complain of the alleged indifference of the republican party to the demands of organized labor on pending legislation, their reception by Speaker Cannon, they believed, was anything but cordial, and left the Speaker's room determined that Mr. Cannon must be defeated for re-election. Speaker Cannon took up the challenge.

Organized labor appears to have neglected the first essential in defeating Mr. Cannon. Nominating primaries were held last Saturday, but both the democrats and the labor people neglected to put up a candidate. The prohibitionists made a nomination, however, and, so it seems possible that if President Gompers really intends to carry out his threat to fight Mr. Cannon it must be done by supporting the prohibition candidate.

In his speech Speaker Cannon will devote himself to the principal grievance of organized labor against the republican party, the grievance that has led the labor leaders into the announcement that they will themselves enter the political field namely, the refusal of the republican House to pass the anti-injunction bill. Speaker Cannon will speak very plainly, and will declare that he opposed it because he believed it would open the doors for the destruction of property by those whom the speaker characterizes as "criminals," who are in no way identified with labor in this fight.

Made $8.85 a Ton on Ice.

The examination of witnesses was continued yesterday before the Interstate Commerce Commission in Toledo, Ohio, in the investigation into the action of railroads and ice companies. Officers of the Toledo Car Service Association were placed on the stand to answer questions regarding the assessing and collection of freight charges, but disclosed little of interest.

H. P. Watters, one of the owners of the Michigan Lake Ice Company and one of the icemen sentenced to the workhouse by Judge Kinkade for conspiracy in restraint of trade, testified that he bought ice from Michigan lakes, had it carried to Toledo by the railroads and paid this year $1.15 a ton, freight included. The same ice was sold to homes in Toledo for $10 a ton under the combination.

City Council.

An adjourned meeting of the Common Council was held last night at which a proposition was received from the Washington, Alexandria and Mount Vernon Railway Company for the privilege of laying a track and operating a railway on Cameron street from Payne street to the corporation limits. The proposition was referred A joint session was held at which Mr. August Oehlert was elected to succeed himself as Police Commissioner from the Third ward and Mr. Carter Smith was selected Measurer of Wood in the place of Mr. Charles Goodrich, resigned.

BOARD OF ALDERMEN.

President Sweeney and Messrs. Hill, Ballenger, Simpson and Curtin were present in the Board of Aldermen.

Mr. Ballenger offered a resolution, which was referred to the Committee on Streets, looking to the improvement of Cameron street from Lee to Union; also from St. Asaph to Pitt.

The action of the Common Council on all the papers which had been sent in Tuesday and last night was concurred in.

An ordinance providing for the paving of Fairfax street from King to Cameron with vitrified brick, received from the Common Council July 24, was read the second and third times and passed.

The proposition of the Washington, Alexandria and Mount Vernon Railway Company for the use of west Cameron street was received from the Common Council and their action in referring the same concurred in.

It was the opinion of the Aldermen that the railroad company had virtually offered nothing for the use of the street, and that the proposition to run a car from Spring Park to the ferry wharf at the foot of King street provided the enterprise proved remunerative was unsatisfactory.

COMMON COUNCIL.

It was some time after the hour of meeting before a quorum was assembled.

The Chair stated that he had called the board together to complete some business begun at the last meeting relative to the opening of the bids for the right of way over the west end of Cameron street, &c. He had since been convinced, he said, from an examination of the code, that bids could be opened by the President of the lower board while that board was in session, but as it was customary to open bids during a joint meeting he would continue that course.

While awaiting the coming of the Aldermen,

Mr. Chas. Goodrich, measurer of wood and bark, sent in his resignation on account of ill health, and asked that Mr. Carter H. Smith be chosen to succeed him.

The Board of Aldermen entered the chamber of the Council and when the members had taken seats the President of Council explained that the Aldermen has been invited to take part in the opening of the bids through courtesy. He called attention to the fact that a joint session was not necessary, as the code provides that such bids should be opened by the lower board and then communicated to the board of Aldermen.

The bid was then read and may be summarized as follows:

The Washington, Alexandria and Mount Vernon Railway Company offers for the various rights of way for upper Cameron street, $100 cash and $50 during each year of the life of the franchise and agrees to open and grade that portion of the street and to maintain a single car between the ferry wharf and Spring Park during certain hours. Should it be found that the car does not pay expenses, the company reserves the right to withdraw it after three months' notice and in lieu of this service will pay the city $50 a year additional.

It was then moved to go into an election for measurer of wood and bark and also for a Police Commissioner from the Third ward to fill the vacancy caused by the expiration of the term of Mr. Oehlert.

Mr. Ballenger opposed going into the election of a Police Commissioner, saying that many members were absent and that others did not know that the election was contemplated at this time. He moved to amend the motion by striking out Police Commissioner. His motion was lost and Mr. August Oehlert, of the Third ward, was elected Police Commissioner to succeed himself, by a unanimous vote.

Mr. Carter H. Smith was unanimously elected measurer of wood and bark, vice Goodrich resigned.

The joint convention then dissolved and when the Common Council had resumed its session the bid for the Cameron street franchise was referred to the joint committee on streets, finance and general laws.

Council then adjourned.

English Trains on Time.

The public service rendered by the British railway lines, the convenience to the traveler and the shipper, is far in excess of anything to be found in this country. The British isles are absurdly small when compared with our vast areas, and this of course simplifies the operating problems. There are no snowdrifts to delay schedules, no sections of crudely built track awaiting perfection, and the locomotives are never far from their home shops. Yet even with allowance for these advantages both freight and passenger traffic are habitually handled with a regularity and certainty that deserve the highest degree of praise. In any large terminal in England the number of passenger trains that arrive either exactly on time or a minute or two ahead is far greater than that of trains even the least overdue. Five minutes is usually a safe margin for an important connection. At Finsbury Park, a suburban station just outside London, trains pass on an average of one every two minutes night and day, yet this tremendous traffic is handled with clocklike precision.—Ray Morris in Atlantic.

Queer Russian Ways.

If you drive through a Russian village about 10 p. m. you will be struck by the absolute quiet that pervades the scene. Not a creature, man or dog, is visible moving about. The place has the air of a deserted village. Suppose by some rare untoward chance you come upon a group of men standing together, apparently in conversation, you will notice that they speak in subdued tones, and, wait so long as you please, you will never hear them laugh. The cause is simply this: These Russian peasants believe in evil spirits; but, unlike the Chinese, they believe that they are attracted, not frightened, by sounds. And so if some unlucky fate decree that the moujik be out of doors after 11 p. m. he is a painfully silent man. This feeling also extends to some of the southern towns. Kiev, the holy city of Russia, is a model in this respect. After 10 p. m. you may practically have the streets to yourself.—Blackwood's Magazine.

Bearing Another's Burden.

That it is not impossible to ring a new change on woman's aversion to telling her correct age has been proved by the rector of a New York church. He does not appear to be more than fifty years old, but declared to an inquiring parishioner that he was seventy-five and added, "I shall be seventy-seven my next birthday."

"The other evening," he explained, "my wife and I computed that our combined ages foot up to a hundred years. Now, of course, no lady is ever over twenty-five years old, so to keep peace in the family I suppose I must say I'm seventy-five."

"But why will you be seventy-seven your next birthday?"

"Because my wife's birthday and mine happen to fall on the same date, and"—with a sigh of resignation—"of course I shall have to shoulder both of them."

Presidential Coincidences.

John Adams was eight years older than his successor, Thomas Jefferson; he eight years older than James Madison; he eight years older than James Monroe, and he eight years older than John Q. Adams. George Washington ended his term as president in his sixty-fifth year, and so, too, did John Adams, Thomas Jefferson, James Madison and James Monroe. Thomas Jefferson and John Adams died on the same day, July 4, 1826, exactly fifty years after the signing of the Declaration of Independence. One other president, James Monroe, died on July 4. His death occurred in 1881.

Perfect Features.

In a perfect face every feature should bear a certain proportion to every other feature. The width of the face should be equal to five eyes. The distance between the eyes should be exactly equal to one eye. Another important relation is that between the eyes and the mouth. The width of the eyes should be equal to two-thirds that of the mouth. The nose should be equal in length to the height of the forehead, of a regular shape and precisely defined outline.

Enjoyments.

I have told you of the Spaniard who always put on his spectacles when about to eat cherries that they might look bigger and more tempting. In like manner I make the most of my enjoyments, and, though I do not cast my cares away, I pack them in as little compass as I can and carry them as conveniently as I can for myself and never let them annoy others.—Southey.

She Knew.

"Maria," said Boggles to his wife, with an idea of instructing her in political economy, "do you know what civil service is?"

"Jasper," replied Mrs. Boggles, with memory of recent contact with the cook, "there isn't any."

A Difference In Kicks.

People are queer. If a man's neighbor is kicked by a horse the neighbors are serious and concerned for the injured man's welfare. But if the neighbor is kicked by a mule, the best the neighbors can do for him is to laugh.—Kansas City Journal.

You need a pill? Use DeWitt's Little Early Risers, the famous little pills. Do not sicken or gripe, but results are sure. Sold by W. F. Creighton & Co., 401 King street.

He Was in Trouble.

"I was in trouble, but found a way out of it, and I'm a happy man again, since Dr. King's New Life Pills cured me of chronic constipation," says E. W. Goodloe, 107 St. Louis St., Dallas, Tex. Guaranteed satisfactory. Price 25c at E. S. Leadbeater & Sons' drug store.

FOR OVER SIXTY YEARS.

AN OLD AND WELL-TRIED REMEDY.—Mrs. Winslow's Soothing Syrup has been used for over sixty years by millions of mothers for their children while teething with perfect success. It soothes the child, softens the gums, allays all pain, cures wind colic and is the best remedy for Diarrhœa. It is pleasant to the taste. Sold by druggists in every part of the world. Twenty-five cents a bottle. Its value is incalculable. Be sure and ask for Mrs. Winslow's Soothing Syrup and take no other kind.
